

Write a paragraph using the words below:

Verbs: hover over / spot / corroborate / eye-brow / disturb

Adjectives: critical / sensitive

Adverb: allegedly

Nouns: threat / evidence / hazardous

People: Federal officials / senators

Places: Picatinny Arsenal

Correction:

New mysterious drones, most of which have been seen **hovering over** New Jersey, NYC and Pennsylvania at night only, have been **spotted**.

Federal officials say / state that there is no **evidence** yet to suggest these drones are / pose a **threat**. What's more / moreover / Furthermore, they claim that none of the reported visual sightings have been corroborated.

Yet / however / Nevertheless, witnesses who saw **eye-brow-raising** things are not reassured / are **disturbed** / are nervous / are unsettled.

Some **senators** consider this unmanned aerial system actively **hazardous** / dangerous, that's why they have written a letter to the FBI, FAA, and the Department of Homeland Security (= department de la sécurité Intérieure).

In fact, some of these 8-foot-wide unidentified objects have **allegedly** flown close to **critical** infrastructures and **sensitive** military sites, such as **Picatinny Arsenal**.

Unlike the White House, which seems undeterred, a sheriff has stated that he would shoot them down without hesitation.

1. FBI (Federal Bureau of Investigation)

- protects and defends the US from terrorist and foreign intelligence threats, upholds and enforces the laws of the U.S., and upholds and protects the U.S. Constitution.

2. FAA (Federal Aviation Administration)

- ensures the safety of civil aviation, improves the efficiency of the air transportation system, and regulates the development of new aviation technologies, including drones.

3. Department of Homeland Security (DHS)

- created after the September 11 attacks. It is responsible for protecting the U.S. from terrorist attacks, managing border security, responding to natural disasters, and ensuring cybersecurity.
- **Mission:** To safeguard the U.S. from various threats, including terrorism, and to ensure the resilience of its critical infrastructure.
