

### **ROLE-PLAY SCENARIO**

A tech company is developing an advanced humanoid robot capable of performing jobs traditionally done by humans. The company is holding a debate **to decide whether to launch the robot.**

**4 members convene to reach a decision.**

**Roles:**

**PUPIL 1: Tech Company CEO** – Excited about the launch, argues that robots improve efficiency and help society.

**PUPIL 2: Human Rights Activist** – Concerned about job losses and ethical issues, believes robots should be limited.

**PUPIL 3: Scientist/Engineer** – Neutral but explains the robot's capabilities and limitations.

**PUPIL 4: Journalist** – Asks questions, challenges arguments, and moderates the debate.

Step 1 – 5 mns: prepare the meeting. Take notes (but do not write any sentences!)

Step 2 – 10 mns: Act out!

Step 3 – Announce your decision to the class.
